

## Resident Council Interview

**Resident Council Interview** - Complete an interview with active members of the Resident Council early enough in the survey to afford the team enough time to investigate any concerns. If there is not a resident council, determine whether residents have attempted to form one and have been unsuccessful, and if so, why.

- Introduce yourself to the president of the council and ask for assistance in arranging the meeting. If there is no president, ask for a list of active resident council participants and select a resident to assist in arranging the meeting. Try to keep the group manageable, no more than 12 residents. Explain the survey process and the purpose of the interview using the following concepts. It is not necessary to use the exact wording.

**“[Name of facility] is inspected periodically by a team from the [Name of State Survey Agency] to ensure that residents receive quality care. While we are here, we make observations, review the nursing home’s records, and talk to the residents and family members or friends who can help us understand what it’s like to live in this nursing home. We appreciate that you are taking the time to talk with us. We would like to know more about the Resident Council and interactions of the group and staff.”**

- At all times, be cognizant of resident confidentiality. Obtain permission from the Resident Council President or Officer to review the Resident Council minutes and become familiar with some of the issues that have been discussed. Review three months of minutes prior to the interview to identify any unresolved areas of concern.
- Review the grievance policy to ensure prompt resolution of all grievances and that the facility has maintained results of grievances for a minimum of 3 years.
- It is suggested that the interview begin with some discussion of issues that have been discussed during the most recent Council meeting and how the facility has responded. For example, “I read in the minutes that you had discussed noise at night during the last meeting. Has the facility responded to your concern?” or “During the last meeting, several participants brought up an issue with food being cold. Has that situation been resolved to your satisfaction?” This initial discussion of current issues before the Council may prove helpful to establish a rapport with the Resident Council President (or Officer) and help make the remainder of the interview more informative.
- Document the names of residents in the meeting.
- Follow up on any concerns that are within the scope of the long-term care requirements with reference to specific F-tags identified on this pathway. Further investigation should include interviews with appropriate staff members to determine how concerns are resolved.
- Team meetings will provide opportunities to share concerns and focus on particular problematic areas. Any potential concerns noted during the interview should be shared with all team members.
